THE **MKII** BRINGS
THE FEATURES
YOU WANT

MAXIMUM POWER

The VIPER CUT 30 Mk II is one of the most powerful cutters for its size. Running at just 30A, this machine still has the capability to produce a 12mm clean cut and a 14mm severance.

CNC COMPATIBLE

The VIPER CUT 30 Mk II comes with a CNC connection, so you can plug in a CNC torch and use it with a CNC table.

CUT ANYTHING

Get unrivalled performance across every kind of metal. Whether you're working on solid mild steel or trying out the new perforated cutting mode on materials like mesh and grating, the Viper Cut 30 Mk II can do it all.

10 AMP PORTABILITY

Take this machine with you wherever you go. With a 10AMP power plug, you can plug and go with any domestic outlet. Its versatility makes it perfect for at-home use and on job sites.

PILOT ARC

Save yourself time. With extended consumable life, you'll spend less time replacing consumables and more time cutting, thanks to the Pilot Arc cutting technology.

RECOMMENDED ACCESSORIES

SC30 PLASMA TORCH CONSUMABLES

PLASMA CUTTER AIR FILTER

The UNIMIG Plasma Cutter Air Filter eliminates contaminants such as sputter caused by moisture and oil from compressed air lines. With new and improved technology, the plasma air filter is able to entrap particles as small as .01 microns. This is crucial as moisture can cause a short-circuit within your torch. Other advantages with the plasma air filter include longer lifespan of consumables and improved cut quality from your machine.

SKU: 50500-12

SC30 PLASMA TORCH CIRCLE CUTTING ATTACHMENT KIT

The UNIMIG SC30 plasma circle cutting guide allows you to cut circles up to 75cm in diameter accurately and with ease. The complete kit is designed for quick and easy setup.

SKU: WGSC2550

CHAOS™ WELDING HELMET

The CHAOS™ Automatic Welding Helmet provides protection to your face and eyes from spatter and UV/IR radiation. Fitted with 4 arc sensors, the CHAOS™ Welding Helmet features 9-13 Shade control as well as GRIND mode for use when grinding. A 100x60mm view allows for large view of the work area, while a replaceable backup battery improves the performance of the auto-darkening filter. It is suitable for MIG, TIG (Minimum 3A) and STICK welding, as well as plasma cutting.

SKU: UM-H-CHAOS

ROGUE™ HEAVY DUTY WELDING GLOVES

The ROGUE™ Heavy Duty Welding Gloves are built for high heat and intensity MIG welding and plasma cutting. Made from heat and flame-resistant premium split cowhide and high-strength Kevlar stitching which adds durability and comfort when you need it most.
